

Clear Cast - Acrylic

Clear Cast Acrylic Rod

- **Highly polished**
- **Manufactured to exact specifications to ensure exceptional quality**

Sizes:

Diameters: Ranging from .250" to 8.00

Lengths: Standard 8ft for rod between .250 and 2.00 inches diameter
 Standard 6ft for rod between 2.125 and 3.00 inches diameter
 Standard 4ft for rod between 3.25 and 6.00 inches diameter
 Standard 2ft to 4ft for rod between 6.50 and 8.00 inches diameter

Colors: Crystal Clear

Cast Acrylic Rod

- **Excellent clarity**
- **High tensile strength**
- **Ultraviolet absorbing**
- **Good electrical properties**
- **Stability under variable conditions**
- **Meets LP-391D, Type I, Grade C**

Applications:

- Furniture Components
- Sight Gauges
- Signs/Displays
- Electrical/Electronic Components
- Lenses

Sizes: From 1/4" to 6" diameters

Acutech's Cast Acrylic Rod has excellent clarity, is light weight, and has good weather-ability. It is unaffected by sunlight, resists aging and maintains stability under variable conditions.

Cast Acrylic Rod is preferred over molded and extruded acrylics for many applications, because it has better clarity, higher tensile strength, and better machining properties. It is easily fabricated, shatter resistant, and durable.
